

LOW-COST DOG & CAT VACCINATIONS & DE-WORMINGS

AT THE 6th ANNUAL PET FAIR IN THE PARK

Sponsored by the SoCal Animal Response Team ~ Vaccinations & De-wormings Provided by the SCVVC

SUNDAY, AUGUST 21, 2011 from **9:30 am - 3:00 pm**
MARINE STADIUM PARK, 5255 Paoli Way, Long Beach, CA

For vaccination & de-worming information, visit www.scvvc.webs.com. For general event information, contact Julie Lapointe at SCARTdonor@yahoo.com.

Clinic is held on a first-come, first-served basis • Pet owners must be at least 18 years of age to participate • All pets must be on leashes or in carriers • Only healthy & non-pregnant animals will be vaccinated • **CASH ONLY** for vaccines & de-wormings •

NOTIFY THE VETERINARIAN PRIOR TO VACCINATING IF YOUR PET HAS EVER HAD A REACTION TO A VACCINE, OR IF YOUR PET HAS RECENTLY SHOWN ANY SIGN OF ILLNESS OR COULD BE PREGNANT.

DOG VACCINES

RABIES **\$10** (Age: 4 months & older)

All dogs 4 mos old & older must be vaccinated for Rabies and licensed. Vaccines are good for **3 years** if dog is over 1 yr old and has proof of prior licensing or proof of prior vaccination by a licensed veterinarian in the U.S. Otherwise, vaccine is good for **1 year**, regardless of dog's age.

DHPP **\$16** (Age: 6 weeks & older)

"4-in-1". "Distemper", "Hepatitis", "Parainfluenza" & "Parvo Virus". (Very contagious & potentially fatal diseases). **Age 6 to 16 weeks:** Initial series of 3 vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, the first booster is recommended in one year, then boosters are recommended every 12 to 36 months.

BORDETELLA **\$13** (Age: 8 weeks & older)

"*Bronchiseptica Bacterin*". (Upper respiratory bacterial infection). **Age 6 to 16 weeks:** Initial series of 3 vaccines administered 2 to 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 2 to 4 weeks apart. Thereafter, 6 month or annual boosters are recommended, depending on exposure.

LYME **\$22** (Age: 9 weeks and older)

"*Borrelia Burgdorferi*". A tick-borne disease. Only recommended for dogs in areas where tick infestation is a problem. **All ages:** Initial series of 2 vaccines administered 2 to 4 weeks apart. Thereafter, annual boosters are recommended.

CAT VACCINES

RABIES **\$10** (or "PUREVAX" **\$20**) (Age: 4 mos & older)

Even indoor cats are at risk of contracting this fatal disease. Vaccine is good for **3 years** if cat is over 1 yr old and has proof of prior vaccination by a licensed U.S. veterinarian. Otherwise, vaccine is good for **1 year**, regardless of cat's age. "Purevax" vaccine can help reduce the risk of cats developing sarcomas (cancer) sometimes associated with Rabies vaccinations. It is always a one-year vaccine. Cat licensing is recommended, but not required.

FVRCP **\$16** (Age: 8 weeks & older)

"3-in-1". "Feline Viral Rhinotracheitis", "Calici", and "Panleukopenia" are serious upper respiratory infections. **Age 8 to 16 weeks:** Initial series of 3 vaccines administered 4 weeks apart. **Older than 16 weeks:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.

FELV **\$18** (Age: 9 weeks & older)

"Feline Leukemia" is a highly contagious and potentially fatal disease. **9 weeks and older:** Initial series of 2 vaccines administered 4 weeks apart. Thereafter, annual boosters are recommended.
